CURRENT SITE TOUR

Mayura Garden Services Website & Phone App Guide

Landing page, Admin access and Agent access documented from
fresh upgraded-site screenshots.

Prepared for Mayura Garden Services

Generated 02 June 2026

60 pages including front and back cover

Email Us

How To Use This Document

This guide is a practical site tour. Each access level has its own section, with desktop website instructions followed by phone application instructions where the same workflow is used on mobile.

1 Landing Page

Public website, quote form, language support and mobile landing experience.

2a Admin Website

Back-office dashboard, quotes, jobs, invoices, clients, team, payroll and settings.

2b Admin Phone Application

Mobile menu, dashboard, quote requests, quote editing, jobs and calendar use.

3a Agent Website

Agent registration, login, referral requests, jobs, gallery and contact features.

3b Agent Phone Application

Phone workflow for agents submitting and tracking referrals.

Screenshots were regenerated into **scripts/current-tour-screenshots** for this version. Older documentation screenshots were not reused.

Current Upgrade Check

The current route map was checked from **src/App.tsx** before this document was generated. The visible admin navigation now uses a top navigation with dropdown groups on desktop and a compact mobile menu plus bottom navigation on phones.

- Public access: landing page, quote request form, before/after gallery, social sharing and language toggle.
- Admin access: dashboard, quote requests, quote builder, materials, packages, jobs, calendar, invoices, clients, agents, employees, payroll, team roles, email tools, email dashboard, settings and webmaster console where permitted.
- Agent access: dashboard, new referral request, jobs, gallery, contact details and password management.
- Mobile access: touch-friendly layouts with persistent bottom navigation for portal areas.

Where a feature requires a signed-in role, the screenshots were taken after signing into that role, not from public placeholder pages.

Who Uses Which Area

The upgraded system separates users by role so each person sees the tools they need without exposing unnecessary management controls.

- **Landing Page:** used by prospective clients to learn about services, view transformations and submit a quote request.

- **Admin Website:** used by Mayura staff and managers to run the quoting, job, invoicing, client and team workflows.

- **Admin Phone Application:** used by the same admin team when working away from a desk.

- **Agent Website:** used by approved real estate agents and partners to submit referred quote requests and track their work.

- **Agent Phone Application:** used by agents in the field when a fast request or job check is needed.

1

Landing Page

Public website experience for visitors, clients and referral leads.

Homepage Hero

The first screen introduces Mayura Garden Services and gives visitors immediate ways to request a quote or move through the public site.

- Use the top navigation to jump through the public sections.
- Use the main call-to-action to move directly to the quote request form.
- Use the language toggle when a Chinese-language client experience is needed.

Fresh screenshot captured from the upgraded site: 01_landing_hero.png

Services Overview

The services section explains what Mayura offers in plain language so visitors can match their garden need to the right type of work.

- Scan the service cards to understand available work types.
- Use this section during client calls to point people toward the right request category.

Fresh screenshot captured from the upgraded site: 02_landing_services.png

Before & After Gallery

The gallery demonstrates visual outcomes from completed work. It is useful for prospects who want evidence of transformation quality before requesting a quote.

- Review before and after examples with the client.
- Use gallery examples to clarify the expected standard of finish.

Our Transformations

See the difference professional garden styling makes for property photos.

Before

Hover to reveal

Front Garden Clean-Up

Overgrown garden bed cleared, mulched & freshly planted

Before

Hover to reveal

Pre-Sale Hedge & Garden Tidy

Overgrown shrubs shaped, garden beds refreshed for listing photos

Before

Hover to reveal

Front Yard Rockery Makeover

Unruly bushes trimmed back to reveal a neat rockery garden

Fresh screenshot captured from the upgraded site: 03_landing_gallery.png

Social Sharing

The sharing section gives visitors and partners simple ways to pass the website to someone else.

- Choose the relevant share channel.
- Use WeChat where Chinese-speaking contacts prefer QR or WeChat sharing.
- Email sharing opens a pre-filled message from the visitor's email client.

Fresh screenshot captured from the upgraded site: 04_landing_social.png

Quote Request Form

The public quote form is the main lead-capture process. It collects contact details, property information, requested service details and supporting photos.

- Enter the client's name, contact details and property address.
- Choose the service type and preferred timing.
- Upload photos where available so admin can assess the garden before quoting.
- Submit the request so it enters the admin quote request workflow.

Fresh screenshot captured from the upgraded site: 05_landing_quote_form.png

Full Public Page

This full-page screenshot confirms the public site flow from hero, services and gallery through to contact and quote capture.

- Use it as a quick visual map of the public site.
- When updating public content, check that the section order still supports quote conversion.

Fresh screenshot captured from the upgraded site: 06_landing_full_page.png

Chinese Language View

The upgraded landing page includes a language toggle for Chinese-language public content.

- Select the language button in the header.
- Review headings, service copy and form labels after switching language.
- Switch back to English using the same control.

Fresh screenshot captured from the upgraded site: 07_landing_chinese.png

Mobile Landing Page

On phones, the landing page stacks content into a touch-friendly format and keeps the main quote path available.

- Open the website on a phone or mobile browser.
- Scroll vertically through services, gallery and quote form sections.
- Use mobile-native keyboard and date controls in the quote form.

Fresh screenshot captured from the upgraded site: 50_mobile_landing.png

Landing Page Operating Notes

The public page is designed to convert visitors into quote requests while also supporting referral partners and Chinese-speaking users.

- Keep gallery images current, clear and relevant to pre-sale garden presentation.
- Check the quote form after any field or email workflow change.
- Use the public page as the starting point for new client enquiries.

Fresh screenshot captured from the upgraded site: 01_landing_hero.png

Landing Page Handover Checklist

Use this checklist after future content or design updates.

- Hero loads with Mayura branding and clear quote call-to-action.
- Service cards are readable on desktop and phone.
- Gallery images are not cropped awkwardly.
- Quote form submits into the admin workflow.
- Language toggle still switches the public content cleanly.

Request a Quote

Tell us about your property and we'll get back to you with a free quote.

 Request a Quote

Fresh screenshot captured from the upgraded site: 05_landing_quote_form.png

Public Access Summary

The landing page is the only area available without signing in. Its purpose is to explain the offer, build trust and send complete request information to admin.

Fresh screenshot captured from the upgraded site: 06_landing_full_page.png

2A

Admin Website

Desktop back-office workflow for Mayura staff, managers and webmaster users.

Admin Login

Admin users start at the secure admin login screen.

- Enter the approved admin email address.
- Enter the password and sign in.
- If access is not granted, the user is returned to the login page until the role is corrected.

Materials Catalogue

The materials area keeps reusable product and cost information available for quotes.

- Search or filter the catalogue.
- Add materials that are commonly used in quotes.
- Use supplier search tools where current supplier pricing needs to be checked.

Fresh screenshot captured from the upgraded site: 14_admin_materials.png

Service Packages

Packages speed up quoting by grouping common services or line items into reusable bundles.

- Create packages for repeat garden service patterns.
- Use packages in quote creation to reduce manual entry.
- Update package prices when business pricing changes.

- Filter jobs by status.
- Open a job to review details, assigned people and progress.
- Keep job status updated so dashboard and calendar data remain accurate.

Calendar

The calendar provides a schedule view for booked and planned work.

- Move between dates to review upcoming work.
- Use the calendar to check availability before confirming dates.
- Open related job records for more detail.

Employees

The employee section supports field-team administration.

- Maintain employee records and active status.
- Use employee records when assigning work and tracking hours.
- Keep rates and details current for payroll accuracy.

Payroll

Payroll brings together hours, rates and pay-period information for employee payment review.

- Select the relevant pay period.
- Review employee hours and calculated amounts.
- Use payroll figures alongside time logs before payment.

Admin Website Daily Process

A typical admin day starts with dashboard review, then moves through quote requests, scheduled jobs, invoices and communication follow-up.

- Check new requests and notifications.
- Convert qualified requests into quotes.
- Update jobs and calendar dates.
- Review invoice/payment status.
- Send follow-up emails where required.

Fresh screenshot captured from the upgraded site: 12_admin_quote_requests.png

2 B

Admin Phone Application

Mobile admin workflow for field checks and quick updates.

Mobile Admin Dashboard

The phone dashboard keeps the same core business view available away from the desk.

- Open the admin site on a phone.
- Sign in with admin credentials.
- Review dashboard cards and recent activity.

Fresh screenshot captured from the upgraded site: 30_mobile_admin_dashboard.png

Mobile Admin Menu

The phone menu exposes the same major admin areas in a compact touch layout.

- Tap Menu in the mobile header.
- Choose the required admin area.
- Use Logout or Change Password from the same mobile menu when needed.

Mobile Quote Requests

Quote requests can be reviewed quickly on mobile, which is useful when new leads arrive while staff are in the field.

- Open Quote Requests from the mobile menu or bottom navigation.
- Review client and service details.
- Follow up or convert the request when enough information is available.

Fresh screenshot captured from the upgraded site: 32_mobile_admin_quote_requests.png

Mobile Quote Editor

The quote editor remains available on phone, with form fields and line items adjusted for the smaller screen.

- Enter client and quote information using phone-friendly fields.
- Scroll through line items and totals carefully before sending.
- Use desktop for long or complex quote builds when possible.

Fresh screenshot captured from the upgraded site: 33_mobile_admin_quote_editor.png

Mobile Jobs

The mobile jobs view is useful for checking job status, value and schedule details while travelling or onsite.

- Open Jobs from the bottom navigation.
- Review status badges and client/job summaries.
- Open job detail when more information is required.

Mobile Calendar

The phone calendar helps confirm schedule information without returning to a desktop.

- Open Calendar from the mobile navigation.
- Review upcoming booked work.
- Use it when discussing dates with clients or staff.

Fresh screenshot captured from the upgraded site: 35_mobile_admin_calendar.png

Admin Phone Usage Notes

The phone application is best for quick checks and light updates. Complex quoting, payroll review and bulk data management are easier on desktop.

- Use mobile for urgent request review, job checks and schedule lookups.
- Use desktop for detailed quote editing, payroll and team role changes.
- Always log out on shared or borrowed phones.

3A

Agent Website

Desktop referral portal for approved partner agents.

Agent Login

Agents use the dedicated agent login rather than the admin portal.

- Enter the approved agent email and password.
- Sign in to reach the agent dashboard.
- Use the password control after login when a password change is needed.

[Return to Homepage](#)

Agent Portal

[Create Account](#)

Fresh screenshot captured from the upgraded site: 41_agent_signup.png

Agent Dashboard

The agent dashboard summarises the partner's referral activity.

- Review active and completed requests.
- Check recent referral submissions.
- Use the top navigation to create requests or review jobs.

New Agent Request

Agents submit new quote requests for prospective clients or properties from this page.

- Enter client details and property address.
- Describe the requested garden work.
- Attach photos when available.
- Submit so Mayura admin can review and respond.

The screenshot displays the 'Request a Quote' form within the Mayura Garden Services Agent Portal. The form is set against a dark green background and includes the following fields:

- Property Address:** A text input field with the placeholder 'Start typing the address...'.
- Property Type:** A dropdown menu with the option 'Select type'.
- Service Package:** A dropdown menu with the option 'Select package'.
- Preferred Date:** A date input field with the placeholder 'dd/mm/yyyy' and a calendar icon.
- Notes:** A text area with the placeholder 'Any special requirements, access details, etc.' and a small icon in the bottom right corner.

A yellow 'Submit Request' button is located at the bottom of the form.

Fresh screenshot captured from the upgraded site: 43_agent_request.png

Agent Jobs

Agents can track jobs associated with their submitted requests.

- Review job status and key details.
- Use job information to keep property stakeholders informed.
- Contact Mayura if job information needs clarification.

Agent Gallery

The gallery gives agents a portfolio reference when speaking with sellers or property managers.

- Browse completed project photos.
- Use examples to explain the value of presentation gardening.
- Refer clients to public examples when discussing scope.

Agent Contact

The contact page gives agents direct Mayura contact information and support paths.

- Use contact details for urgent referral questions.
- Use WeChat details where appropriate.
- Keep this page handy when supporting a client conversation.

3 B

Agent Phone Application

Mobile referral workflow for agents in the field.

Mobile Agent Dashboard

The phone dashboard gives agents a compact view of referral activity.

- Open the agent portal on a phone.
- Sign in with approved agent details.
- Use the bottom navigation for Home, Request, Jobs, Gallery and Contact.

Fresh screenshot captured from the upgraded site: 51_mobile_agent_dashboard.png

Mobile Agent Request

Agents can submit requests while onsite or immediately after meeting a prospective client.

- Enter client and address details.
- Use the phone camera or photo library to add garden images.
- Submit the request while the details are still fresh.

The screenshot displays the 'Request a Quote' form within the Mayura Garden Services mobile application. The app's header is orange, featuring the company logo and name 'MAYURA GARDEN SERVICES' on the left, and a location pin icon and a share icon on the right. The form itself is a dark green card with the title 'Request a Quote' at the top. It contains several input fields: 'Property Address' with a placeholder 'Start typing the address...', 'Property Type' with a dropdown menu showing 'Select type', 'Service Package' with a dropdown menu showing 'Select package', and 'Preferred Date' with a date picker showing 'dd/mm/yyyy'. Below these is a 'Notes' section with a text area containing the placeholder 'Any special requirements, access details, etc.'. A prominent orange 'Submit Request' button is located at the bottom of the form. The app's bottom navigation bar is dark green and includes five icons with labels: 'Home' (grid icon), 'Request' (plus icon), 'Jobs' (briefcase icon), 'Gallery' (photo icon), and 'Contact' (speech bubble icon).

Fresh screenshot captured from the upgraded site: 52_mobile_agent_request.png

Mobile Agent Jobs

The mobile jobs view keeps referral progress accessible when agents are away from their desk.

- Open Jobs from the bottom navigation.
- Check the status of referred work.
- Use Contact if an update is needed.

Fresh screenshot captured from the upgraded site: 53_mobile_agent_jobs.png

Mobile Agent Gallery

The phone gallery lets agents show examples during property conversations.

- Open Gallery from the bottom navigation.
- Show before/after examples to prospects.
- Use examples to set expectations for garden presentation.

Fresh screenshot captured from the upgraded site: 54_mobile_agent_gallery.png

Mobile Agent Contact

The mobile contact page keeps Mayura details available for quick support.

- Open Contact from the bottom navigation.
- Use phone, email or WeChat details as appropriate.
- Escalate time-sensitive quote or job questions directly.

Fresh screenshot captured from the upgraded site: 55_mobile_agent_contact.png
