

MAYURA GARDEN SERVICES

Website User Guide

Complete guide for Administrators, Agents & Employees

Version 1.0 • May 2026

About This Guide

What This Guide Covers

This user guide provides step-by-step instructions for every feature of the Mayura Garden Services website. Whether you are an office administrator managing quotes and invoices, a real estate agent requesting services for a property, or a garden staff member checking your schedule, this guide has a dedicated section for you. All features are shown with full-size screenshots, numbered callouts and plain-English descriptions.

How to Read This Guide

Each section begins with an overview page followed by screenshots of every screen. Gold circles with numbers appear on each screenshot, pointing to key areas. A legend table beneath each screenshot explains what each numbered item does. No technical knowledge is required.

Sections at a Glance

Section 1 – Public Website

The home page visible to all visitors, including the online quote request form.

Section 2 – Admin Section

Full back-office management: quotes, jobs, invoices, clients, staff, payroll and settings.

Section 3 – Agent Portal

For real estate agents: submit requests, track jobs and view invoices. This section can be printed and given to agents separately.

Section 4 – Employee Section

For garden staff: view your schedule, job details and payslips.

Appendix

Quick-reference tables, glossary, troubleshooting guide and support contacts.

NOTE

The gold numbered circles on each screenshot correspond to rows in the legend table beneath it. Each row explains exactly what that part of the screen does.

1

SECTION

THE PUBLIC WEBSITE

Pages visible to all visitors – no login required.

Home Page – Desktop View

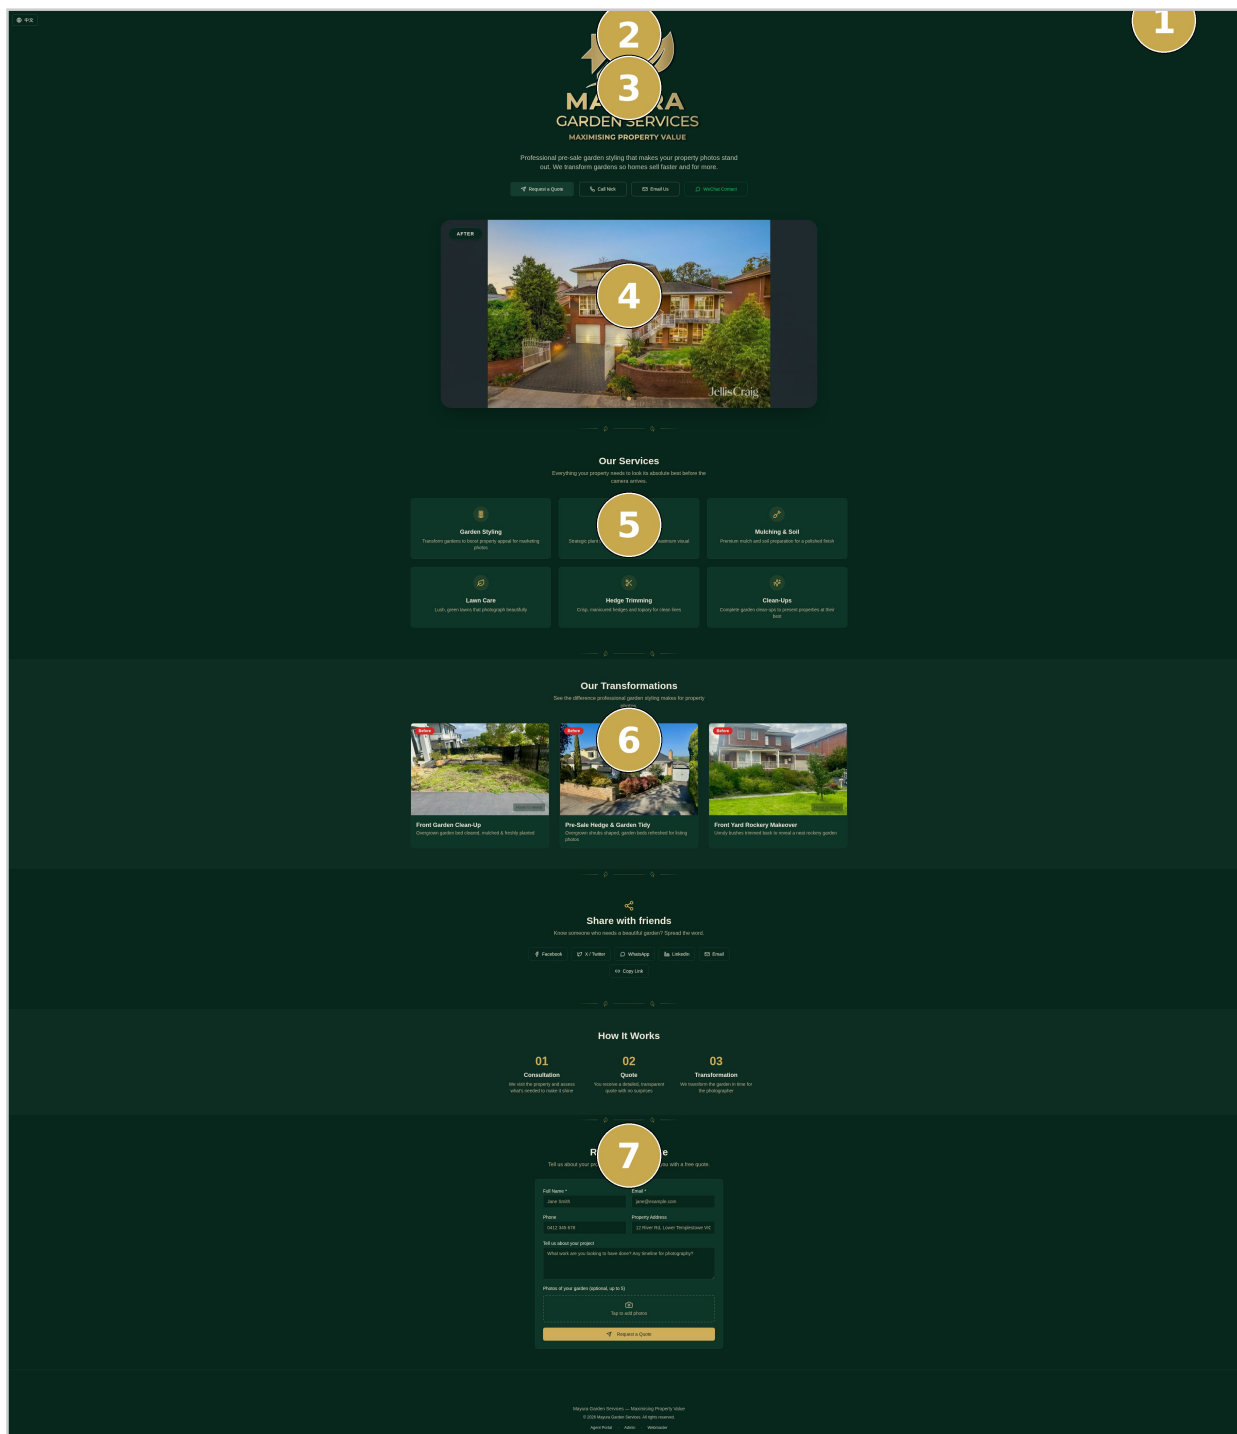

Fig 1.1 – mayuragardenservices.com.au as seen in a desktop browser

#	Feature	Description
1	Language Toggle	Chinese (中) selector in the top-right corner – switches the whole site to Simplified Mandarin.
2	Logo & Brand	Mayura Garden Services logo and tagline 'Maximising Property Value' centred in the header.
3	Call-to-Action Buttons	Request a Quote, Call Nick, Email Us and WeChat Contact – all open direct contact options.
4	Before & After Slider	Interactive drag slider showing a real garden transformation. Drag the handle left or right.
5	Our Services	Six service cards: Garden Styling, Planting, Mulching & Soil, Lawn Care, Hedge Trimming, Clean-Ups...
6	Our Transformations	Three real project photo examples with descriptions of the work carried out.
7	Request a Quote Form	Online enquiry form: client details, property address, project description and optional garden photo...

Home Page – Key Features

What Visitors Can Do

The public website is the first thing clients and agents see when they search online. It is designed so potential clients can understand the services offered and request a quote without phoning the office. The site works on all devices and automatically adjusts its layout for phones, tablets and desktops.

Requesting a Quote Online

The 'Get a Quote' button opens a form where visitors enter their name, contact details, address and the type of work needed. Once submitted, the request appears immediately in the Admin section under Quote Requests.

Services Displayed

The home page lists all service categories offered:

- Lawn mowing and edging
- Garden bed maintenance and weeding
- Hedge and shrub pruning
- Garden clean-ups and green waste removal
- Planting and landscaping work

Contact Information

The footer of every public page shows the business phone, email, service area and ABN. Clients can also find links to social media profiles and the Privacy Policy.

NOTE

The public home page cannot be edited through the admin system. Contact the nominated webmaster, Andrew Perry (andy.perry@vista.com), to update website content or imagery.

Home Page – Mobile View

Mobile-Optimised Layout

The Mayura Garden Services website is fully responsive. On a phone or tablet the navigation collapses into a hamburger menu and all sections stack vertically for easy scrolling.

How the Mobile Layout Differs

Navigation Menu

The top links collapse into a ■ icon in the top-right corner. Tap it to expand the full menu.

Hero Section

The hero image resizes and the headline text scales down to fit the smaller screen.

Services Grid

Cards appear in a single-column list on mobile instead of the desktop 3-column grid.

Get a Quote Form

Fields stack vertically. The keyboard appears automatically when a field is tapped.

Footer

All footer links remain accessible; they wrap across multiple lines on narrow screens.

Testing on Your Phone

To test on your own device, open your browser and go to mayuragardenservices.com.au. No app or login is needed. The site works on iPhone (Safari), Android (Chrome) and all major mobile browsers.

NOTE

If any part of the public website displays incorrectly on mobile, note the phone model and browser version, then report it to the webmaster.

2

SECTION

ADMIN SECTION

Complete back-office management. Access requires an administrator login.

Admin Dashboard

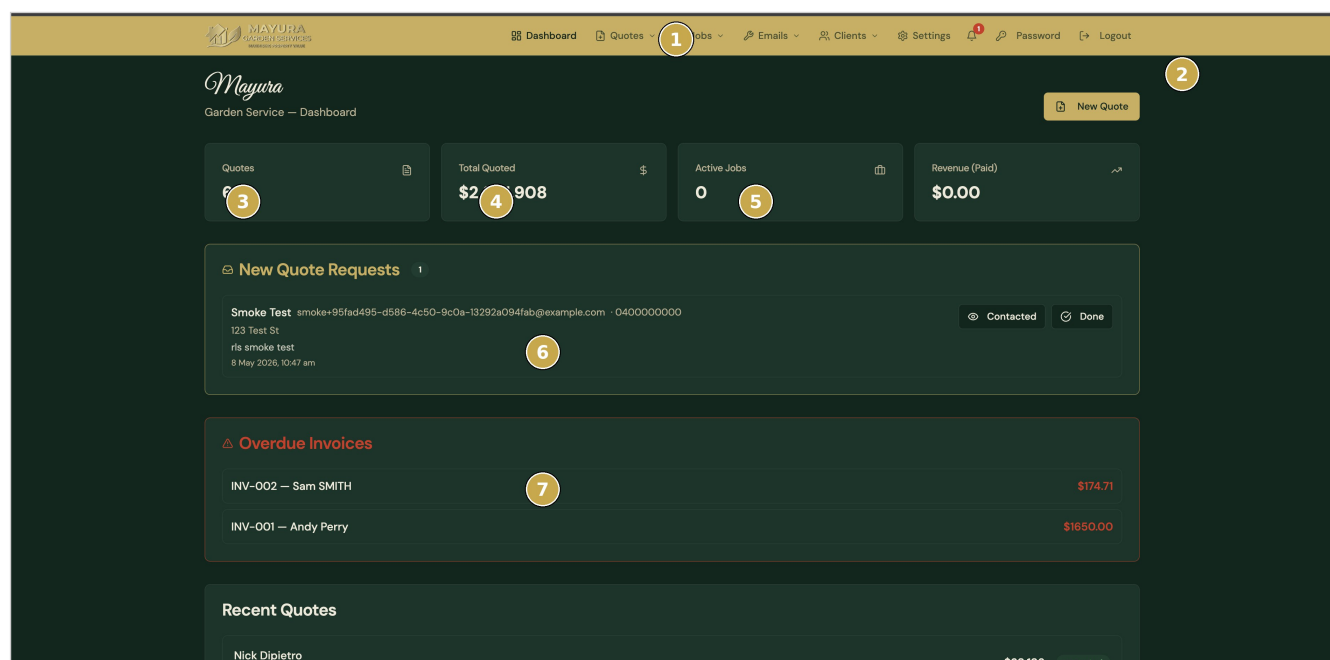

Fig 2.1 – The Admin Dashboard – starting point for all back-office tasks

#	Feature	Description
1	Top Navigation	Menu bar across the top: Dashboard, Quotes, Jobs, Emails, Clients, Settings, Password and Logout.
2	New Quote	Shortcut button to create a new quote directly from the dashboard.
3	Quotes Count	Total number of quote requests received and awaiting action.
4	Total Quoted	Cumulative dollar value of all quotes sent to clients.
5	Active Jobs	Jobs currently scheduled or in progress.
6	New Quote Requests	Incoming public website enquiries waiting for a formal quote to be prepared.
7	Overdue Invoices	Invoices past their due date, highlighted in red. Click to open and follow up.

Quote Requests

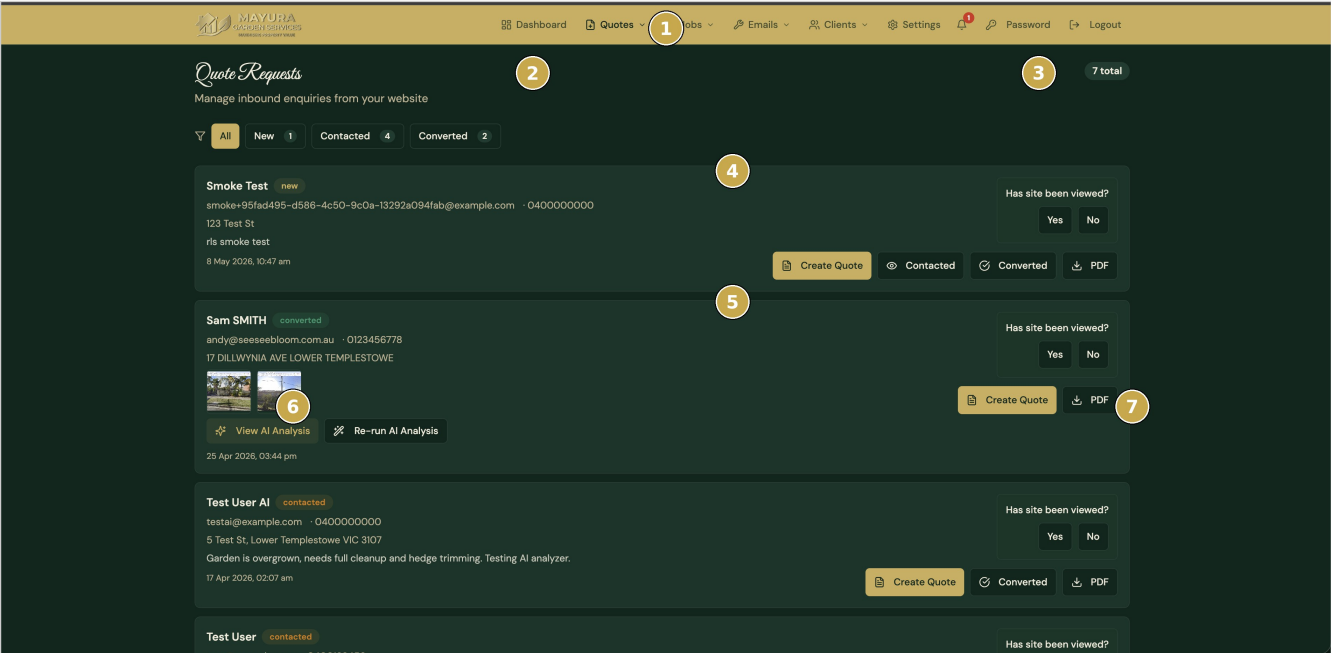

Fig 2.2 – Quote Requests list showing all pending and processed enquiries

#	Feature	Description
1	Top Navigation	Main admin menu. Click any item to jump to that section.
2	Page Title	Confirms you are on the Quote Requests list.
3	New Quote	Click to create a brand-new quote from scratch.
4	Filter & Search	Search by client, address or date. Filter by status (All / Pending / Approved / Declined).
5	Quote List	All requests ordered by date received, most recent first.
6	Status Badge	Colour-coded status on each row: grey=Pending, green=Approved, red=Declined.
7	Action Buttons	View detail, edit, or change the status of a quote.

----------------------------------	------------------------------	--------------------------------

Download PDF Preview & Send

Fig 2.4 – Full quote detail: client, services, materials and price totals

#	Feature	Description
1	Top Navigation	Main admin menu.
2	Quote Reference	Unique quote ID and creation date. Share this reference with clients.
3	Client Info	Client name, phone number and email address.
4	Property & Services	Property address and the list of services quoted.
5	Materials / Line Items	Itemised breakdown of materials, labour and unit costs.
6	Price Summary	Subtotal, GST (10%) and total amount payable.
7	Action Buttons	Approve (sends confirmation email to client), Decline, or Edit the quote.

Materials Library

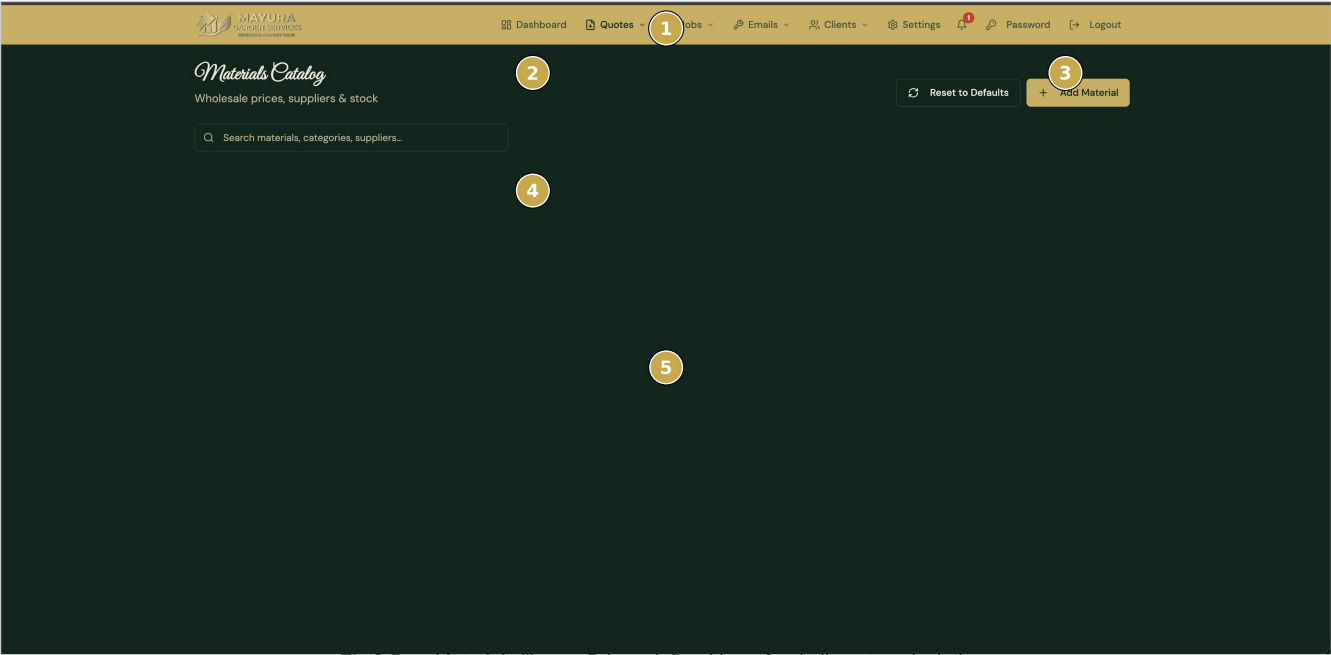

Fig 2.5 – Materials library. Prices defined here feed all quote calculations

#	Feature	Description
1	Top Navigation	Main admin menu.
2	Materials Library	Catalogue of all materials used in quoting. Prices defined here feed all quote calculations.
3	Add Material	Click to add a new supply item with name, unit and price.
4	Search	Find materials by name or category.
5	Materials Table	Lists each item's name, unit, price and category. Edit or delete items from this table.

Service Packages

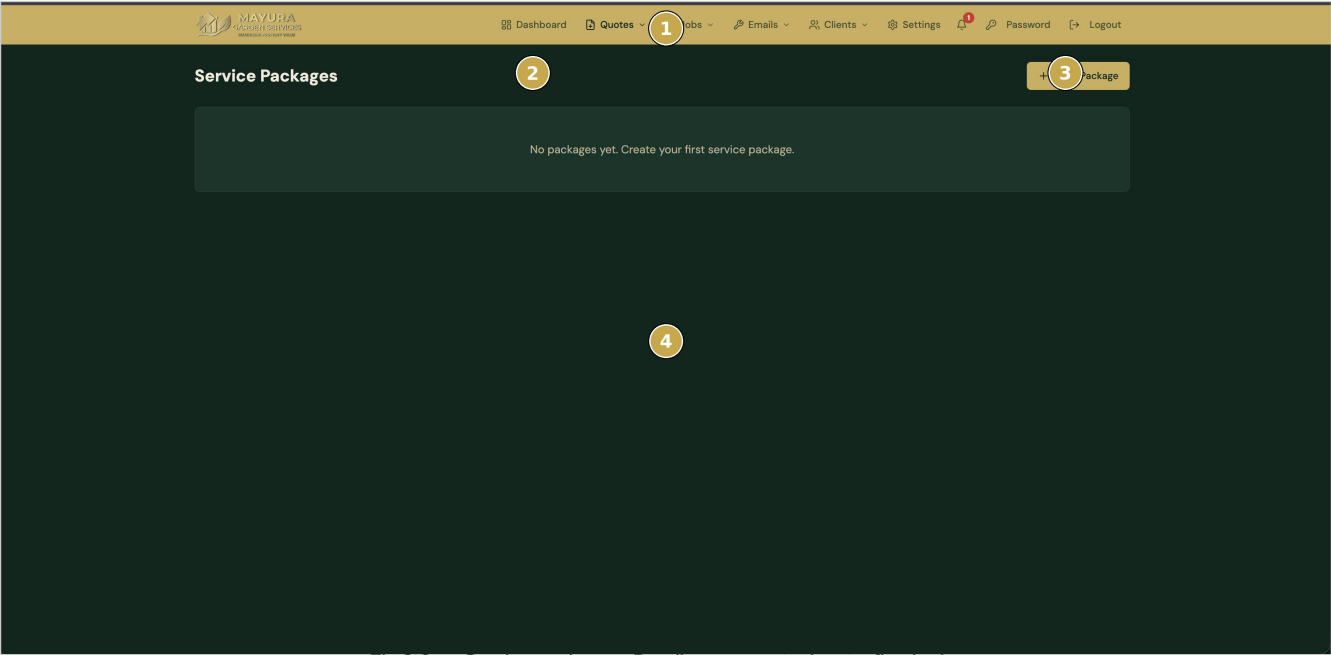

Fig 2.6 – Service packages. Bundle common tasks at a fixed price

#	Feature	Description
1	Top Navigation	Main admin menu.
2	Service Packages	Pre-built service bundles at a fixed combined price for common job types.
3	Add Package	Create a new bundle: choose included services and set a flat price.
4	Packages Area	Existing packages appear as cards here. Each card shows name, description, included tasks and pric...

Jobs Management

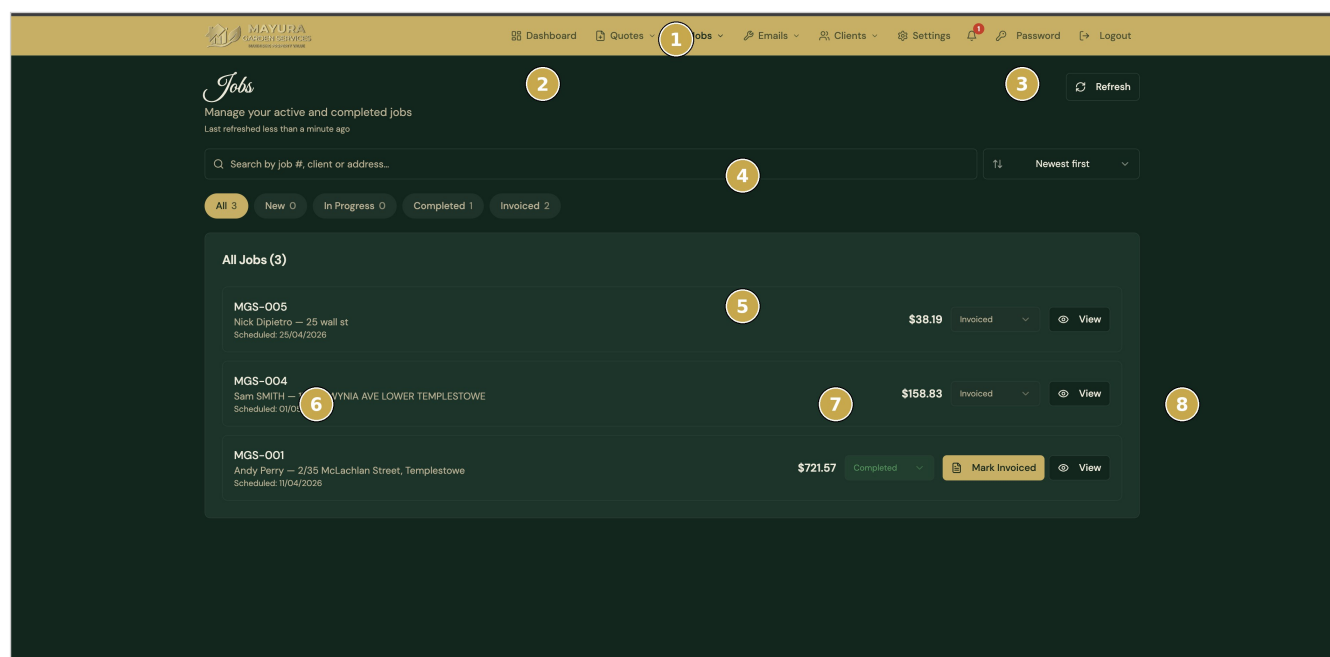

Fig 2.7 – Jobs list: all scheduled, active and completed jobs

#	Feature	Description
1	Top Navigation	Main admin menu. Jobs section is active.
2	Jobs List	All jobs ordered by scheduled date.
3	New Job	Create a job directly without starting from a quote.
4	Status Filter	Filter by Scheduled, In Progress, Completed or Cancelled.
5	Jobs Table	Job ID, client name, property address, scheduled date and assigned staff.
6	Job ID / Client	Click to open the full job detail screen for that job.
7	Assigned Employee	Staff member(s) responsible for completing this job.
8	Status / Actions	Current status badge and buttons to view, edit or update the job.

Job Detail View

What the Job Detail Screen Shows

The Job Detail screen opens when you click a job from the Jobs list. It provides everything needed to manage the job from scheduling through to completion.

Key Areas on the Screen

Job Reference & Status

Unique job number at the top of the page. The status badge (Scheduled / In Progress / Completed / Cancelled) updates as the job progresses.

Client & Property

Client name, phone, email and the full property address. Click the address to open a map view.

Scheduled Date & Time

When the job is booked. Click Edit to reschedule. Changes trigger an email notification to the assigned employee.

Services Checklist

All tasks to complete at this property. Employees tick each item off on site via the Employee Portal.

Assigned Employees

Staff responsible for this job. Add or remove employees using the Assign button.

Job Notes

Internal notes and special access instructions visible to office and assigned staff only – not shown to clients.

Actions Available

Button	What it Does
Mark Complete	Closes the job and triggers client invoice generation.
Edit	Update any job details: date, services, notes or assigned staff.
Reassign	Change which employee(s) are assigned without rescheduling.
Cancel	Cancel the job. Prompts for a cancellation reason logged on the record.
NOTE Only administrators can mark a job complete from the Admin section. Employees can also mark jobs complete from the Employee Portal, which notifies the office automatically.	

Calendar & Scheduling

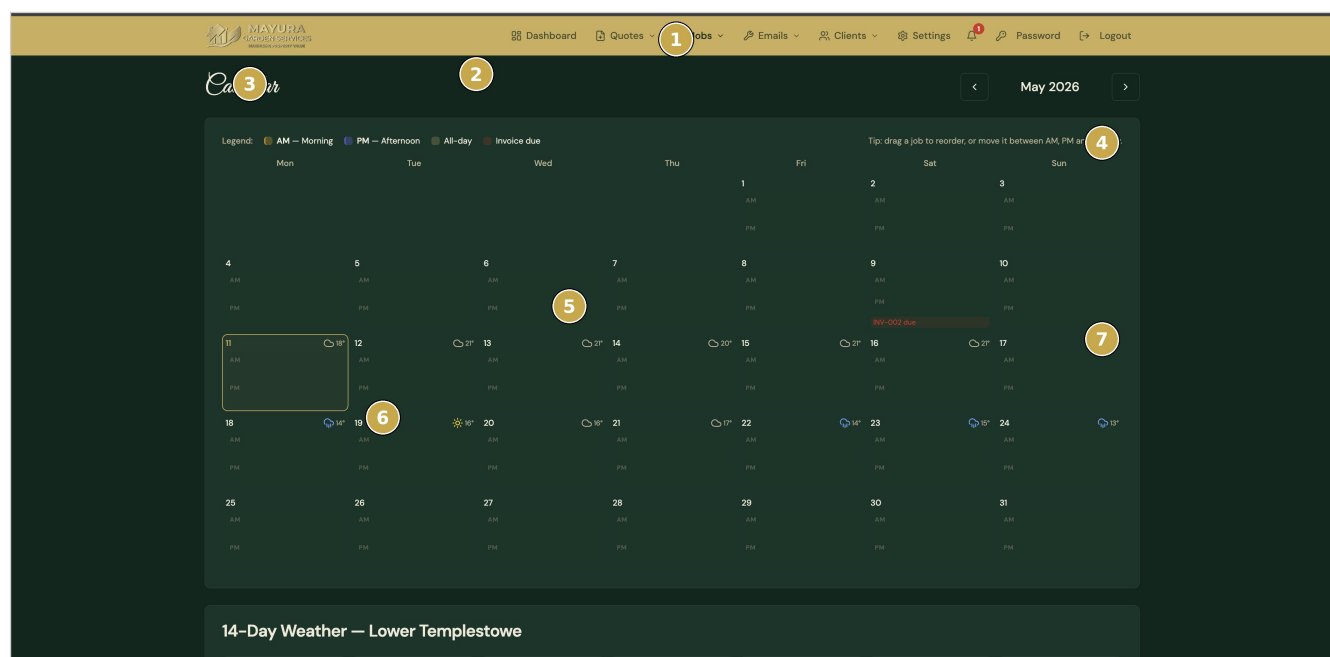

Fig 2.9 – Monthly calendar with weather overlay and scheduled jobs

#	Feature	Description
1	Top Navigation	Main admin menu. Calendar section is active.
2	Month Heading	Current month and year displayed above the grid.
3	Navigation Arrows	Click left or right to move between months.
4	Weather Widget	Real-time weather for the service area – useful when planning outdoor jobs.
5	Calendar Grid	Each day cell shows jobs booked. Click a day to view or add jobs.
6	Job Event	A coloured block on a date indicates a scheduled job. Colour shows status.
7	Upcoming Jobs	Chronological list of the next scheduled jobs shown in the right panel.

Invoices

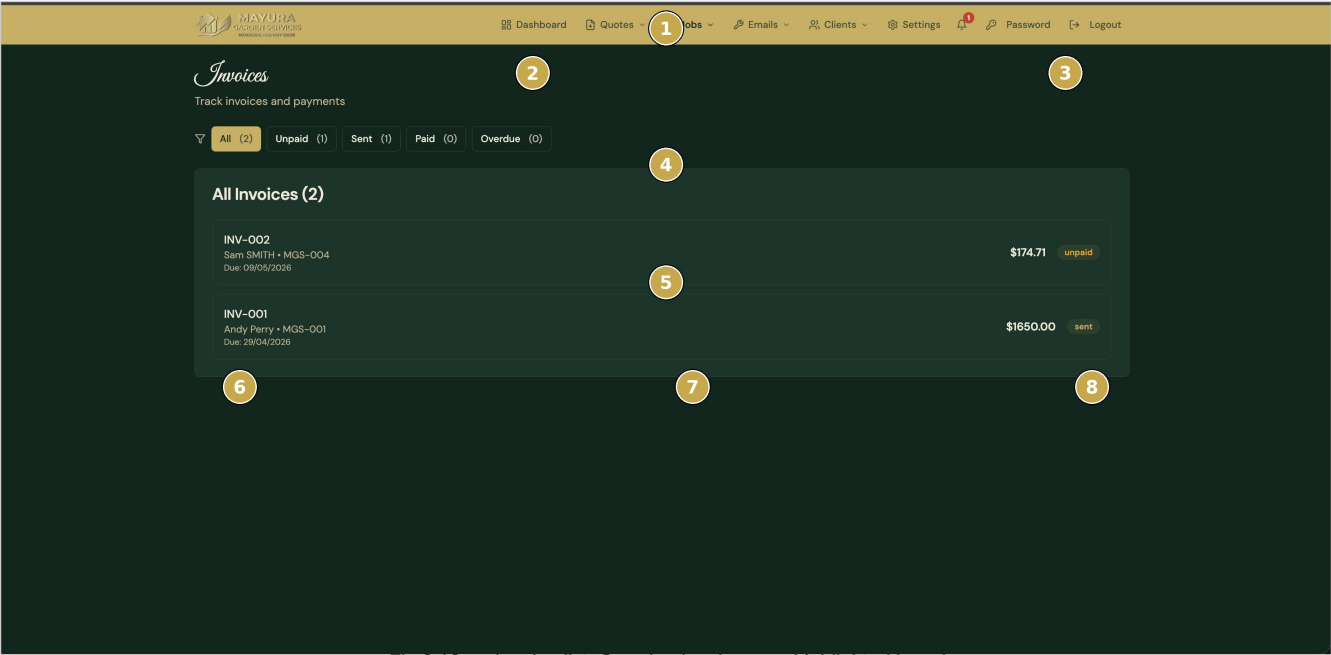

Fig 2.10 – Invoice list. Overdue invoices are highlighted in red

#	Feature	Description
1	Top Navigation	Main admin menu. Invoices section is active.
2	Invoices List	All invoices ordered by date. Overdue invoices are highlighted in red.
3	New Invoice	Create a new invoice or convert an approved quote into an invoice.
4	Status Filter	Filter the list by Paid, Unpaid or Overdue.
5	Invoice List	Scrollable list of all invoices with key details at a glance.
6	Invoice Number	Unique reference (e.g. INV-002). Click to open the full invoice.
7	Amount & Due Date	Total amount owing and the payment due date for that invoice.
8	Payment Status	Green=Paid, Orange=Unpaid, Red=Overdue.

Download PDF Send Invoice

Fig 2.11 – Full invoice: line items, GST breakdown and send/download options

#	Feature	Description
1	Top Navigation	Main admin menu.
2	Invoice Reference	Invoice number, creation date and the linked job or quote reference.
3	Client Billing Details	Client name, billing address and ABN if applicable.
4	Invoice Dates	Date issued and the payment due date.
5	Line Items	Itemised list of services and materials with quantities and unit prices.
6	Totals Section	Subtotal, 10% GST and the total amount due.
7	Action Buttons	Send invoice by email, download as PDF, or mark as Paid once payment is received.

Email Tools

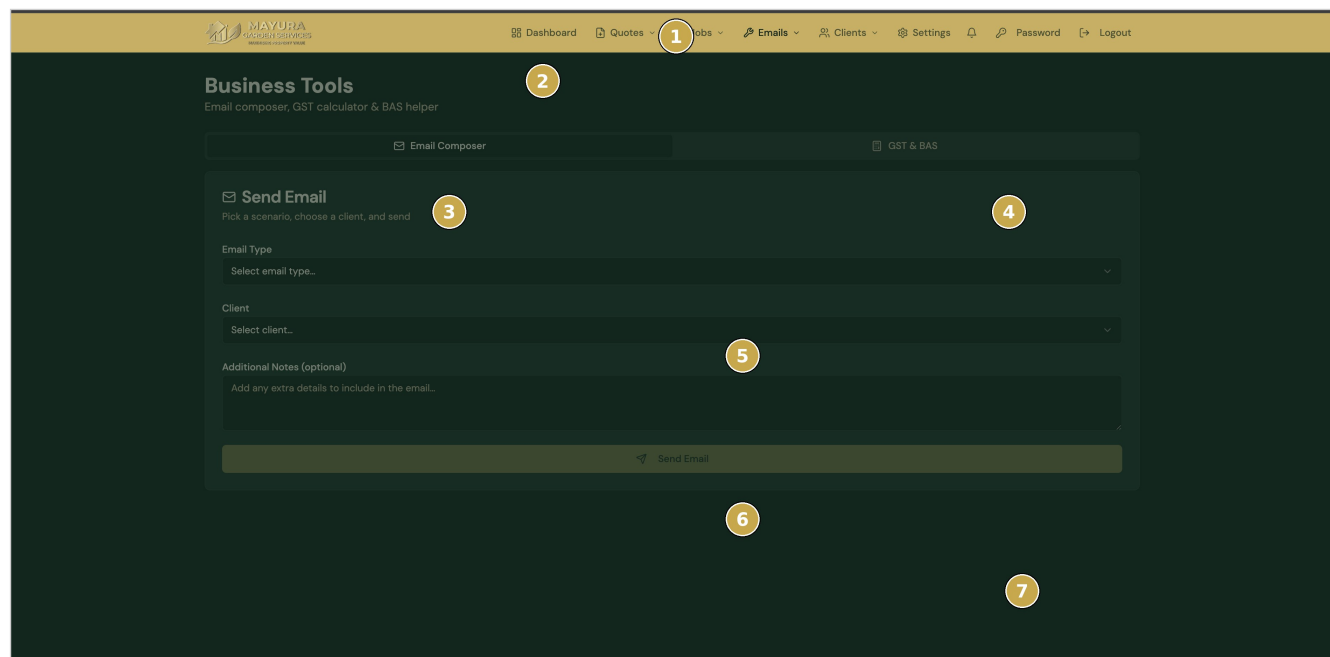

Fig 2.12 – Email Tools for templated communications directly from the system

#	Feature	Description
1	Top Navigation	Main admin menu. Emails section is active.
2	Email Tools	Send professional templated emails to clients, agents and staff.
3	Template Selector	Choose from: Quote Confirmation, Job Reminder, Invoice Sent, Payment Reminder, etc.
4	Recipient	Enter or search for the email recipient.
5	Email Preview	Shows the email body with personalisation tokens filled in before sending.
6	Personalisation Tokens	Variables like {client_name} and {job_date} are replaced automatically with real data.
7	Send Button	Sends the email. A copy is automatically logged in the client's record.

Client Management

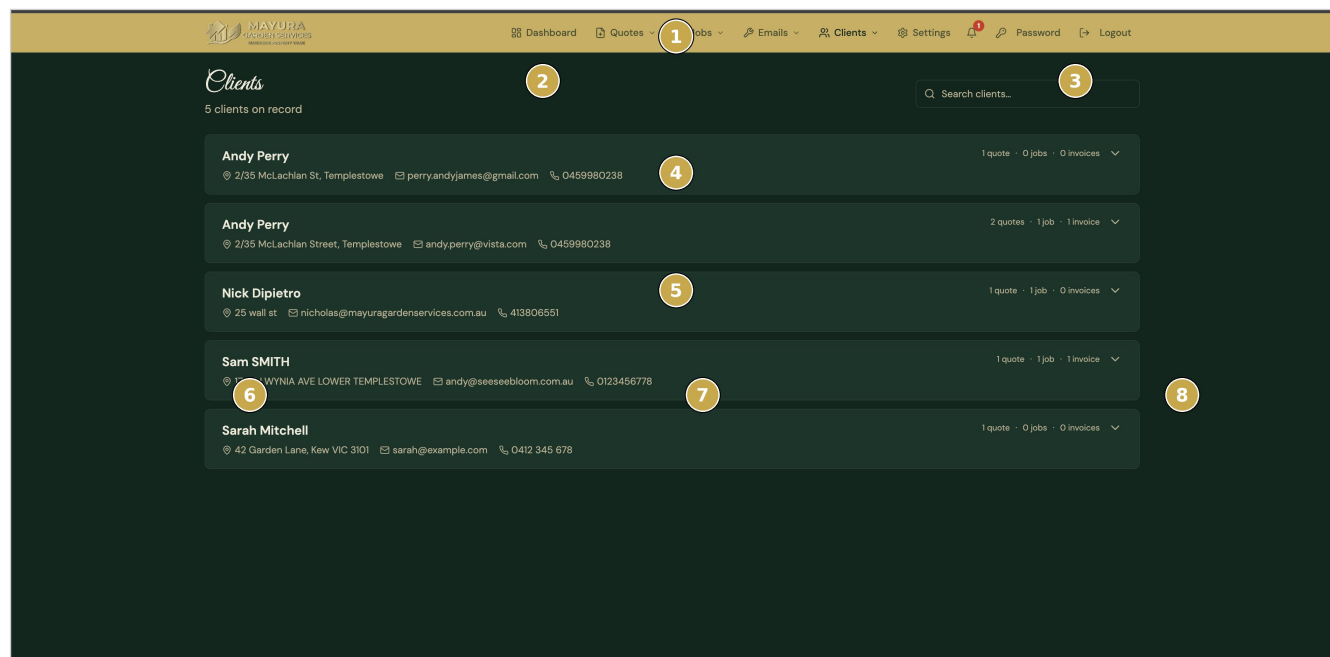

Fig 2.13 – Client list with search and full history access

#	Feature	Description
1	Top Navigation	Main admin menu. Clients section is active.
2	Client List	All clients sorted by name or date added.
3	Add Client	Register a new client manually with name, phone and email.
4	Search	Find a client by name, email address or phone number.
5	Client Table	Each row shows client name, contact details and number of past jobs.
6	Client Name	Click a client's name to open their full profile and history.
7	Contact Details	Phone and email address. Click the email icon to open Email Tools pre-filled for that client.
8	View History	Opens a filtered view of this client's quotes, jobs and invoices.

Agent Management (Admin View)

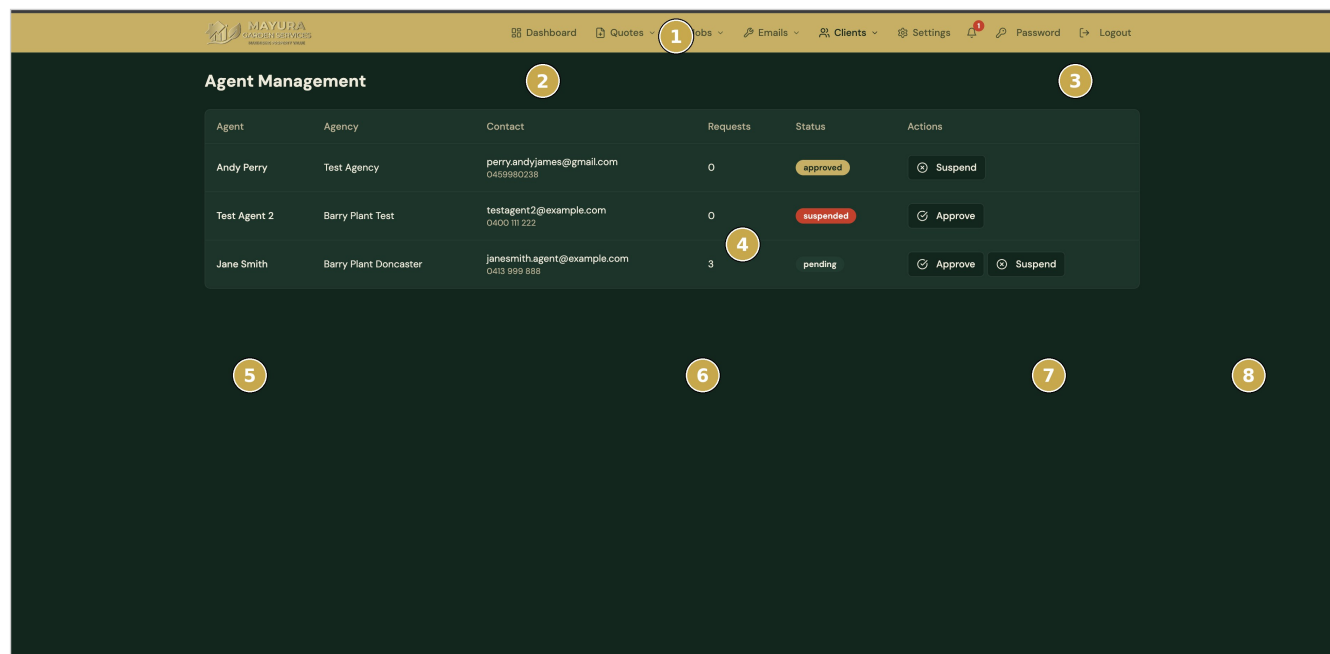

Fig 2.14 – Manage real estate agent accounts from the Admin section

#	Feature	Description
1	Top Navigation	Main admin menu. Clients section is active (Agent Management is a sub-section).
2	Agent Management	All real estate agents registered for the Agent Portal.
3	Invite Agent	Send an invitation email to a new real estate agent.
4	Agent List	Table of all registered agents with their details and status.
5	Agent Name	Full name and company of the registered agent.
6	Agency / Email	The agent's real estate agency and registered email address.
7	Status	Whether the agent account is currently Active or Inactive.
8	Edit / Deactivate	Update agent details or deactivate portal access.

Employee Management

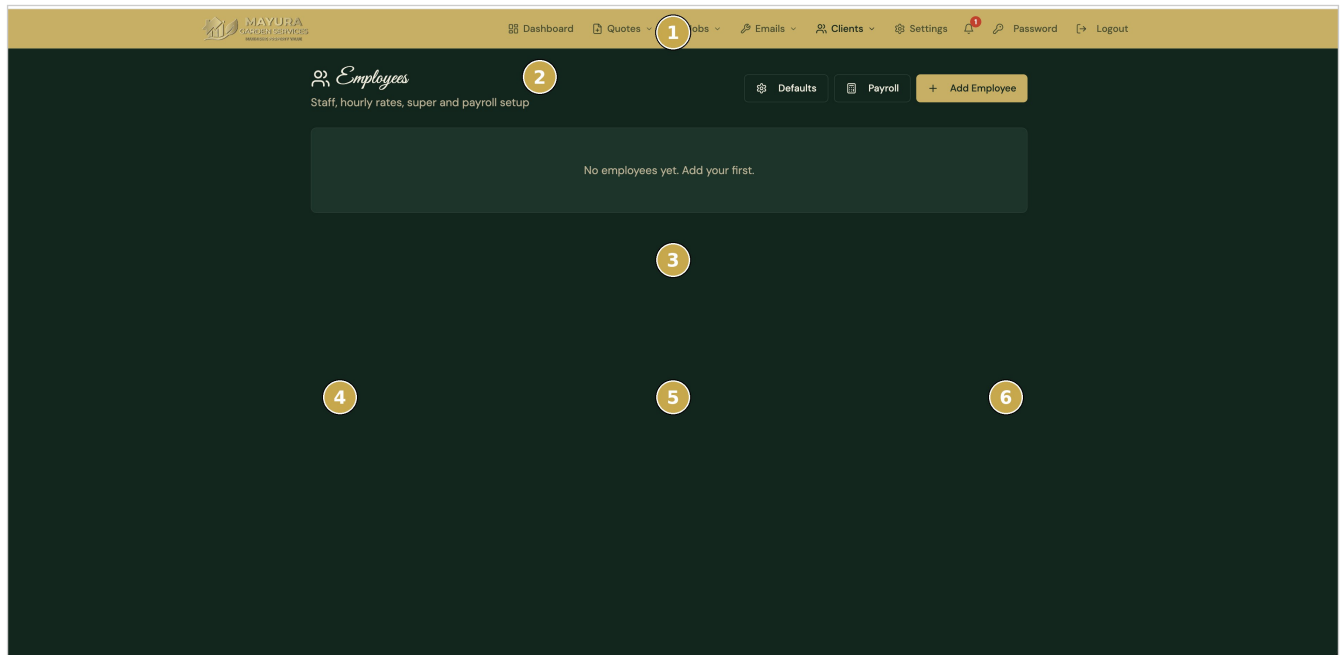

Fig 2.15 – Employee management. Add profiles to enable scheduling and payroll

#	Feature	Description
1	Top Navigation	Main admin menu.
2	Employee Management	Manage garden staff profiles, pay rates and payroll settings.
3	Empty State	No employees added yet. This message appears until the first staff profile is created.
4	Defaults	Set default pay rates that apply to all newly created employee profiles.
5	Payroll	Jump directly to the payroll processing screen.
6	Add Employee	Click to create the first employee profile with name, contact and pay rate.

Payroll

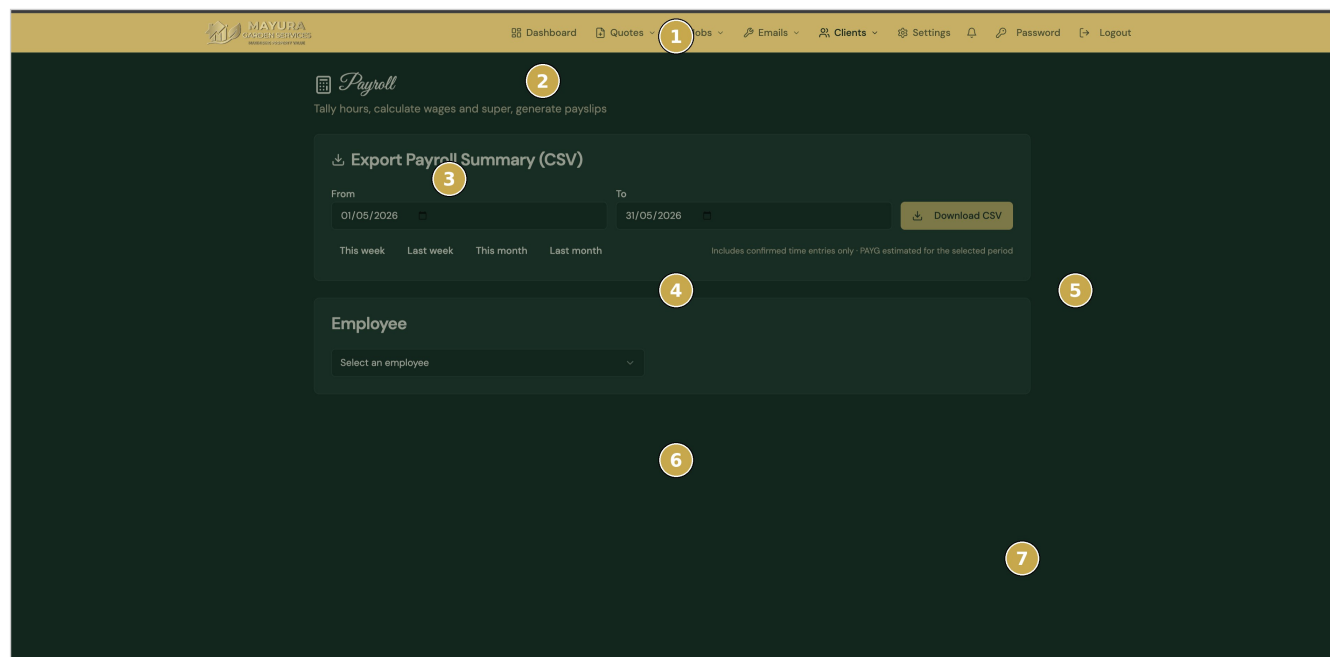

Fig 2.16 – Payroll screen. Hours pulled from completed jobs automatically

#	Feature	Description
1	Top Navigation	Main admin menu.
2	Payroll	Process employee pay. Hours are pulled automatically from completed jobs.
3	Pay Period	Select the fortnight or month to process from the date picker.
4	Employee Hours	Each row shows an employee, their hours worked and applicable rate.
5	Hours & Rate	Ordinary hours and pay rate per hour. Overtime is calculated automatically.
6	Totals	Gross pay, tax withheld (PAYG) and net pay for each employee.
7	Process / Export	Mark the pay run as processed and download a CSV for your payroll system.

Settings

Fig 2.17 – Settings: logo, ABN, contact info, notifications and service area

#	Feature	Description
1	Top Navigation	Main admin menu. Settings section is active.
2	Settings	Configure business information and system preferences.
3	Business Information	Business name, ABN, address and contact details shown on quotes and invoices.
4	Notifications	Choose when automatic emails are sent – e.g. on quote approval, job completion.
5	Logo & Branding	Upload your business logo. It appears on quotes, invoices and client emails.
6	Service Area	Define the suburbs or postcodes you service. Used in public-facing content.
7	Save Settings	Click to apply all changes across the system.

Password Management

How to Change Your Admin Password

The Password screen lets you update the password for your admin account. It is accessed via the 'Password' link in the top navigation bar. Changing your password regularly is recommended for account security.

Steps to Change Your Password

Step	Action
1	Click 'Password' in the top navigation bar.
2	Enter your current password in the 'Current Password' field to confirm your identity.
3	Type your new password in the 'New Password' field. Minimum 8 characters, mixed case and
4	Re-enter the same new password in the 'Confirm Password' field.
5	Click 'Update Password' to save. You will see a confirmation message.

Password Requirements

- At least 8 characters in length
- At least one uppercase letter and one lowercase letter
- At least one number
- Cannot be the same as your previous password

If You Forget Your Password

Use the 'Forgot Password' link on the admin login page. A reset link will be sent to the email address registered for your account. Check your spam folder if the email does not arrive within 5 minutes.

NOTE

For security, change your admin password every 90 days. Never share your password with anyone. If you believe your account has been compromised, contact the webmaster immediately: andy.perry@vista.com

Webmaster Access

What is the Webmaster Section?

The Webmaster section provides the highest level of access to the Mayura Garden Services website. It includes system-level settings, all user account management and advanced configuration. It is intended for technical administration only.

Nominated Webmaster

The nominated webmaster for mayuragardenservices.com.au is:

Field	Details
Name	Andrew Perry
Role	Webmaster / System Administrator
Contact	andy.perry@vista.com
Responsibility	Website configuration, user management and system updates

Ordinary administrators and employees should not require access to the Webmaster section. If you believe you need webmaster-level access, contact Andrew Perry directly.

NOTE

This guide does not document the Webmaster section. If you have been granted webmaster access, separate technical documentation is available from Andrew Perry.

Admin on Mobile Devices

Accessing Admin on a Phone or Tablet

The admin section is designed primarily for desktop use but all pages are accessible on mobile. The layout adjusts to smaller screens automatically.

What Works Well on Mobile

- Viewing the dashboard and checking today's jobs
- Reviewing and approving incoming quote requests
- Checking the calendar for upcoming jobs
- Viewing client details and adding quick notes
- Sending templated emails via Email Tools

What is Better on Desktop

- Creating a new quote (many fields, material selection)
- Processing payroll (large table with multiple columns)
- Updating settings and uploading logos
- Managing the materials library and packages

How to Access Admin on Mobile

Open your phone browser (Safari on iPhone, Chrome on Android) and go to mayuragardenservices.com.au. Log in with your admin credentials. Bookmark the admin login page for quick future access.

NOTE

For security, always log out of the admin section when using a shared device. Tap your name in the top-right corner and select Log Out.

Admin Tips & Best Practices

Suggested Daily Workflow

Morning – Check the Dashboard

Review the Dashboard for new quote requests and today's jobs. Check the Calendar weather widget to plan for weather-impacted jobs.

Quotes – Respond Promptly

New requests from the public website appear in Quote Requests. Aim to prepare and send formal quotes within one business day.

Jobs – Confirm Assignments

On the Jobs page, verify that today's jobs have employees assigned. A job with no assigned employee will not appear in the employee's schedule.

Invoices – Follow Up Overdue

The Invoice list highlights overdue payments in red. Use Email Tools to send a polite payment reminder.

End of Day – Review Activity

The Dashboard activity feed shows all of today's events. Confirm all jobs are updated and no requests have been missed.

Security Tips

- Change your password every 90 days using the Password screen
- Never share your admin login credentials with anyone
- Always log out after using a shared or unfamiliar computer
- If you suspect unauthorised access, contact the webmaster immediately

NOTE

Two-factor authentication (2FA) may be available in Settings. If available, it is strongly recommended that all admin users enable it.

Admin Quick Reference

Common Tasks at a Glance

Task	Where to Go	Key Button
View new quote requests	Quotes → Quote Requests	—
Create a quote	Quotes → New Quote	New Quote
Approve a quote	Quotes → open quote	Approve
Convert quote to invoice	Quotes → open quote	Create Invoice

Assign employee to job	Jobs → open job	Assign Employee
Mark a job complete	Jobs → open job	Mark Complete
Send an invoice	Invoices → open invoice	Send Invoice
Record payment received	Invoices → open invoice	Mark Paid
Download invoice PDF	Invoices → open invoice	Download PDF
Add a new client	Clients	Add Client
Invite an agent	Agent Management	Invite Agent
Add an employee	Employees	Add Employee
Run payroll	Payroll	Process Payroll
Update business logo	Settings	Save Settings
Change admin password	Password	Update Password
Send a templated email	Tools → Email Tools	Send
Log out	Top-right → your name	Log Out

Admin Section Summary

Section 2 – Key Takeaways

Dashboard

Your command centre. Live overview with links to every section.

Quote Requests

All client requests. Review, quote and approve or decline from here.

New Quote / Quote Detail

Create formal quotes with itemised services. Send directly to clients by email.

Materials & Packages

Your pricing catalogue. All prices flow through to quotes automatically.

Jobs

Manage service delivery. Assign staff, track progress and mark completion.

Calendar

Visual schedule with weather overlay for planning outdoor work.

Invoices

Generate, send and track client invoices. Monitor payment status at a glance.

Email Tools

Send professional templated emails for quotes, reminders and follow-ups.

Clients

Full record of every client with contact history, jobs and invoices.

Agents & Employees

Manage access and records for agents and garden staff.

Payroll

Process pay runs using hours captured automatically from completed jobs.

Settings & Password

Configure business information and keep your account secure.

NOTE

If you cannot find a feature described in this guide, it may require a different permission level. Contact Andrew Perry (webmaster) if you believe you should have access to additional features.

3

SECTION

AGENT PORTAL

For real estate agents and property managers.
This section can be printed and given to
agents separately.

Logging In to the Agent Portal

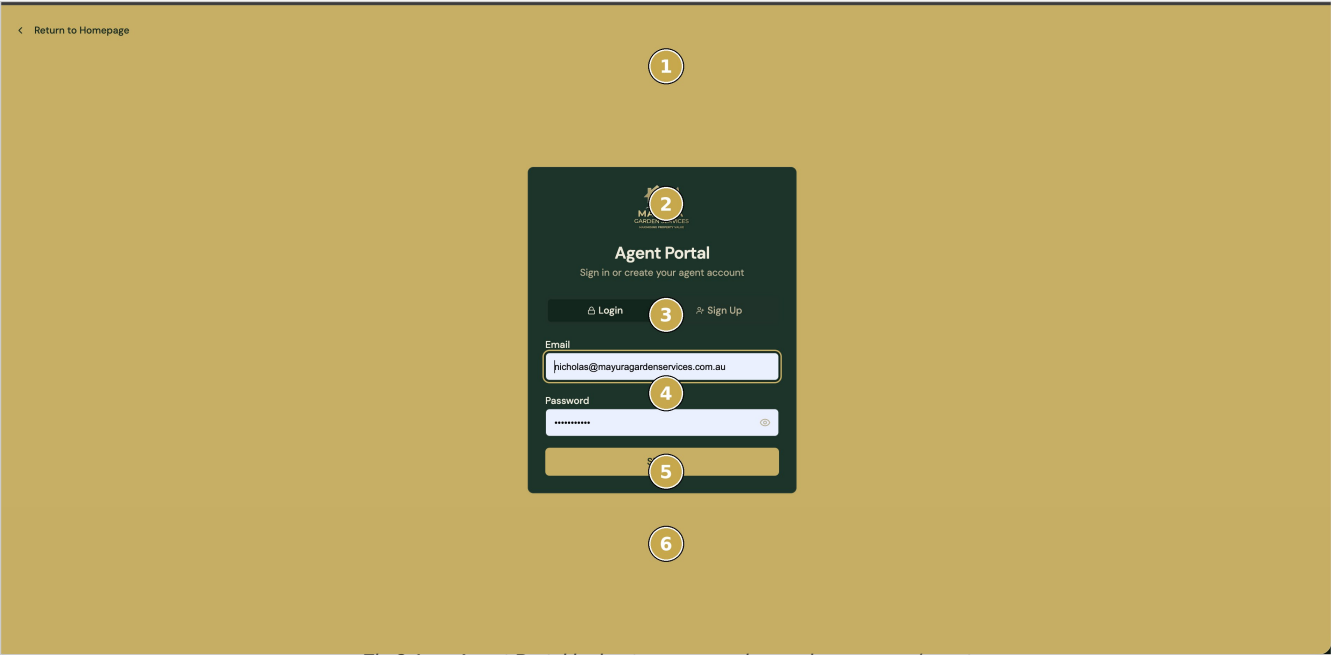

Fig 3.1 – Agent Portal login at mayuragardenservices.com.au/agent

#	Feature	Description
1	Logo / Header	Confirms you are on the Agent Portal login page.
2	Page Title	Confirms this is the Agent Portal, separate from Admin.
3	Email Address	Enter the email you used when registering.
4	Password	Enter your password. Click the eye icon to show/hide.
5	Sign In	Logs you in to your agent dashboard.
6	Register / Forgot	New? Click Register. Forgotten password? Click Forgot Password.

Creating an Agent Account

Fig 3.2 – Agent registration form. Complete all fields and click Create Account

#	Feature	Description
1	Logo / Header	Confirms you are on the Agent Portal registration page.
2	Registration Form	Create your agent account. Complete all fields.
3	Full Name	Your name as it will appear on requests and correspondence.
4	Email Address	Used as your login username and for all notifications.
5	Phone Number	Contact number for the office to reach you about jobs.
6	Agency / Company	Your real estate agency or property management company.
7	Create Account	Submits registration. Confirmation email sent within minutes.

Agent Dashboard Overview

Your Agent Dashboard

After logging in you arrive at your Agent Dashboard. It shows a summary of all requests you have submitted and their current status.

Dashboard Panels

My Requests

All quote requests you have submitted, most recent at the top. Each row shows the property address, request date and current status.

Status Summary

Quick count of requests by status: Pending, Quoted, Scheduled, In Progress, Completed.

Recent Activity

Feed of the latest updates on your requests.

My Profile

Link to update your contact details and notification preferences.

Request Status Guide

Status	Meaning
Pending	Received and being reviewed by the Mayura team.
Quoted	A formal quote has been emailed to you. Please review and approve.
Approved	You approved the quote. The job is being scheduled.
Scheduled	Job booked with a garden team assigned.
In Progress	The garden team is currently on site.
Completed	Job finished. An invoice will be sent to your billing contact.
Cancelled	Request or job was cancelled. Contact the office if unexpected.

Submitting a Quote Request

How to Submit a New Request

Step	Action
1	Log in to the Agent Portal at mayuragardenservices.com.au/agent
2	Click the 'New Request' button on your dashboard.
3	Enter the property address (autocomplete suggestions appear as you type).
4	Select the type of work required from the service list.
5	Choose a preferred date or date range for the work.
6	Add any special instructions (access codes, tenant contact, areas to avoid).
7	Click 'Submit Request'. You receive a confirmation email immediately.

After You Submit

The Mayura office reviews your request and prepares a formal quote. You will receive an email with the quoted price. You can also view the quote by logging in and clicking on the request. To approve, click 'Approve Quote' in the portal or reply to the quote email.

Providing Access Details

If tenants are in the property, add their contact details in Special Instructions so the garden team can arrange access. If there is a lockbox or keycode, include those details here too – all information is confidential and visible only to authorised Mayura staff.

NOTE

If you manage many properties, save common addresses to your profile for faster re-submission. See your profile settings within the portal.

Tracking Your Requests

Checking Request Status

Log in to the Agent Portal at any time to check the status of any request. All requests are shown on your dashboard with their current status.

Email Notifications

The system sends automatic emails each time a request status changes. By default you receive notifications for:

- Quote ready for your review
- Job confirmed and scheduled
- Job completed
- Invoice sent to your billing contact

Customise notifications in My Profile → Notification Settings.

Viewing a Quote or Invoice

To view a quote, log in and click on the request. The quote document is attached. Click 'View Quote' to open the PDF. To approve, click the 'Approve' button on the same screen.

Invoices are sent to your billing contact by email. A PDF copy is also available in the portal under the completed request.

Contacting the Office

Open any request and click 'Contact Office'. This sends a message directly to the Mayura team with the request reference attached, making it easy for the team to respond quickly.

NOTE

For urgent matters – such as a job that needs rescheduling at short notice – please phone the office directly. Portal messages are monitored during business hours.

Agent Portal on Mobile

Using the Portal on Your Phone

The Agent Portal is fully mobile-friendly. Submit requests, approve quotes and check job status from any phone or tablet at any time.

Mobile Tips for Agents

Add to Home Screen

On iPhone: tap the Share icon in Safari, then 'Add to Home Screen'. On Android: tap the three-dot menu in Chrome, then 'Add to Home Screen'. Creates an app-like shortcut.

Submitting on Mobile

Tap 'New Request', type the property address (autocomplete helps on a small keyboard) and select services. Takes under two minutes.

Approving a Quote

Tap the link in your notification email to open the portal on your phone, then tap 'Approve Quote'. No desktop needed.

Notification Emails

Set notifications to an address you check on your phone so you are alerted to updates immediately.

Downloading Invoices

Tap 'View Invoice' in the portal. The PDF opens in your browser. Use the Share icon to save to Files or forward by email.

NOTE

If the portal displays incorrectly on your phone, clear your browser cache or switch to a different browser. If the issue persists, contact the Mayura office.

Agent Quick Reference

Agent Portal – Common Tasks

Task	How to Do It
Log in	mayuragardenservices.com.au/agent → Sign In
Create account	Agent Portal → Register
Submit a request	Dashboard → New Request
Check request status	Dashboard → My Requests → open request
Approve a quote	My Requests → open request → Approve Quote
Download an invoice	My Requests → completed request → View Invoice
Contact the office	My Requests → open request → Contact Office
Update contact details	Dashboard → My Profile → Edit
Change password	Dashboard → My Profile → Change Password
Adjust notifications	Dashboard → My Profile → Notification Settings
Log out	Dashboard → top-right corner → Log Out

Agent Support

Contact Method	Details
Phone	Refer to mayuragardenservices.com.au for current contact number
Email	See the Contact page on the website
Website	mayuragardenservices.com.au

NOTE

Section 3 (pages 33–40) of this guide can be printed separately and given to real estate agents or property managers as a standalone 8-page reference.

4

SECTION

EMPLOYEE SECTION

For Mayura Garden Services garden staff: check your schedule, view job details and access your payslips.

Accessing the Employee Portal

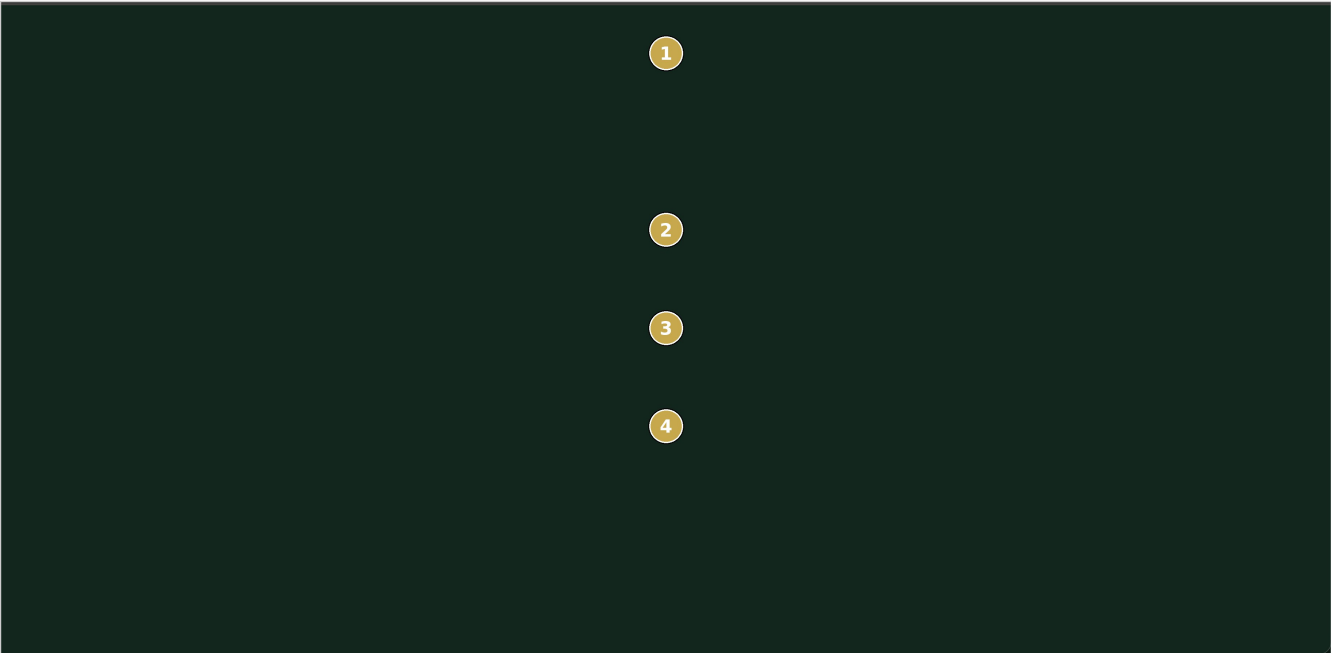

Fig 4.1 – Employee portal before a profile is linked. Contact your manager to activate.

#	Feature	Description
1	Portal Header	Confirms you are in the Employee section.
2	No Profile Message	Appears when the admin has not yet linked your login to an employee record.
3	Your Login Email	The email associated with your account. Confirm with your manager.
4	Contact Admin	Instruction to contact the office to activate your profile.

Viewing Your Schedule

Your Job Schedule

Once your employee profile is set up by the office, you can log in to see your upcoming jobs. Your schedule shows every job assigned to you: date, time, property address and services to complete.

Accessing Your Schedule

Log in at mayuragardenservices.com.au with the email the office registered for you. Your dashboard shows the current week. Use the arrow buttons to view future weeks.

What You Will See

Column	What It Shows
Date & Time	Scheduled start time for the job.
Property Address	Full address. Tap to open maps navigation.
Services	Checklist of all tasks to complete at this property.
Special Notes	Access codes, tenant contacts or special instructions from the office.
Status	Scheduled, In Progress or Completed. Update this as you work.

Viewing a Job

Tap any job in your schedule to see the full details, including the checklist, client notes and a map link to the property. Section 4.3 covers job information in detail.

NOTE

Your schedule updates in real time. If the office reschedules or adds a job, it appears immediately. Check your schedule each morning before leaving for the day.

Job Information & Directions

Opening a Job

Tap any job in your schedule to open the full job detail screen. This shows everything you need to complete the job.

Information on the Job Screen

Property Address

Tap the address to open your phone's maps app with turn-by-turn directions to the site.

Access Instructions

Gate codes, lockbox details or specific access routes appear here. Read before arriving.

Tenant or Owner Contact

If someone needs to let you in, their name and phone number are shown here. Tap to dial.

Services Checklist

Tick each task as you complete it. When all items are ticked you will be prompted to mark the job complete.

Photos

Some jobs require before and after photos. Tap the camera icon to attach photos from your phone.

Job Notes

Additional information from the office: areas to avoid, client preferences and so on.

Getting Directions

Tap the property address on any job screen. Your phone asks which maps app to open. Choose your preferred app and follow the turn-by-turn directions.

NOTE

If you arrive at a property and cannot gain access or the property looks unsafe, contact the office before doing any work. Do not leave without logging a note in the job record.

Completing & Recording Jobs

How to Record a Completed Job

Step	Action
1	Open the job in your schedule.
2	Tick every item on the services checklist.
3	Add before and after photos if required for this job.
4	Add any notes – for example, tasks that could not be completed and why.
5	Tap 'Mark Job Complete'. Status changes to Completed.
6	The office is notified automatically and can then issue the client invoice.

Partial Completion

If you cannot complete all tasks – due to weather, access issues or time – tick the tasks you did complete and add a note explaining what remains. Notify the office by phone if tasks are outstanding.

Adding Notes

Notes you add to a job are visible to the office team but not to the client. Use notes to record anything relevant for future visits: areas of concern, equipment needed or access details that differed from the record.

NOTE

All job completions are timestamped and linked to your account. Your hours are calculated from job completions and used in payroll. Always mark jobs complete at the time you finish – not at end of day – for accurate records.

Viewing Your Payslips

Accessing Your Payslips

Payslips are available in the Employee Portal as soon as the office processes your pay run. You will receive an email notification each time a new payslip is available.

Viewing a Payslip

Log in and navigate to My Payslips (accessible from the main menu or your profile). You will see all past payslips, most recent first. Tap any payslip to open the full document.

What is on Your Payslip

Section	What it Shows
Pay Period	The dates covered (e.g. 1 May – 14 May 2026).
Employer Details	Mayura Garden Services name and ABN.
Employee Details	Your name and employee ID.
Hours Worked	Total ordinary hours and overtime for the period.
Pay Rate	Your hourly rate. Contact the office if incorrect.
Gross Pay	Total earnings before tax.
Tax Withheld	PAYG tax deducted per your tax file declaration.
Net Pay	Amount deposited into your bank account.
Year-to-Date	Running total of earnings and tax for the financial year.

Downloading Your Payslip

Tap 'Download' on any payslip to save a PDF to your device. You may need this for rental applications, Centrelink or tax returns.

NOTE

If you believe your pay is incorrect – for example if hours from a job are missing – contact the office as soon as possible. Do not wait until the next pay run.

Employee Portal on Mobile

Using the Portal on Your Phone

The Employee Portal is designed to be used on a smartphone during the working day. Most staff check schedules, view job details and mark jobs complete on their phone throughout the day.

Recommended Mobile Setup

Add to Home Screen

On iPhone: open the portal in Safari, tap Share, then 'Add to Home Screen'. On Android: open in Chrome, tap the menu, then 'Add to Home Screen'. Creates a one-tap shortcut.

Enable Notifications

Allow browser or email notifications so you receive alerts when a new job is assigned or your schedule changes.

Keep the Portal Open

During your working day, keep the portal open in your browser tab for quick access to tick off tasks and mark jobs complete.

Use the Map Link

Always tap the address in the job screen to open navigation rather than typing it manually. Saves time and avoids errors.

Take Photos in the Portal

When photos are required, tap the camera icon in the job screen. Your phone camera opens and the photo is attached automatically.

Offline Access

An internet connection is required. If you are in an area with no signal, the portal will not update. When signal returns, reload the page.

NOTE

If you lose your phone or change your number, contact the office immediately so they can update your contact details and secure your account.

Employee Tips & Best Practices

Day-to-Day Tips

Check Your Schedule Every Morning

Before leaving for the day, review your schedule to confirm jobs, times and addresses. If anything looks wrong, call the office before you start driving.

Mark Jobs Complete Promptly

As soon as you finish a job, mark it complete in the portal. This triggers the client invoice and ensures your hours are recorded for payroll.

Add Notes When Something is Different

If you could not complete a task, found damage, or noticed something the client should know, add a note. The office reads all job notes.

Keep Your Profile Updated

If your phone number or email changes, update it in My Profile immediately so the office can reach you.

Log Out on Shared Devices

If you access the portal on someone else's phone or a shared computer, log out when done.

Getting Help

Query Type	Who to Contact
Wrong schedule or missing jobs	Office administrator
Pay or payslip queries	Office administrator
Portal login problems	Office administrator or Andrew Perry (webmaster)
Job access or property issues	Office administrator (phone – do not just leave a note)
Emergency on site	Call 000 first, then notify the office

5

SECTION

APPENDIX

Quick reference tables, glossary,
troubleshooting and support contacts.

Appendix A – Quick Reference Overview

Purpose of the Quick Reference Tables

The next three pages provide condensed reference tables for each user type. They are designed to be printed and kept at your desk or saved to your phone for quick lookup without searching the full guide.

Table Summary

Page	Section	Who It's For
50	Admin Quick Reference	Office administrators
51	Agent Quick Reference	Real estate agents and property managers
52	Employee Quick Reference	Garden staff

How to Read the Tables

Each row describes one task. The columns show the task name, where to navigate (which menu or page) and the specific button or action to click or tap. Multi-step tasks have their steps numbered in the description.

Admin Login

URL	mayuragardenservices.com.au/admin
-----	-----------------------------------

Agent Login

URL	mayuragardenservices.com.au/agent
-----	-----------------------------------

Employee Login

URL	mayuragardenservices.com.au (same site - employee role)
-----	---

NOTE

These tables cover the most common tasks. For detailed instructions on any item, refer to the corresponding section earlier in this guide.

Admin Quick Reference – Full Table

Task	Navigation	Button
View new enquiries	Admin → Quotes → Quote Requests	—
Create a quote	Admin → Quotes → New Quote	New Quote
Approve a quote	Admin → Quotes → open quote	Approve
Decline a quote	Admin → Quotes → open quote	Decline
Convert quote to invoice	Admin → Quotes → open quote	Create Invoice
Create job from quote	Admin → Quotes → open quote	Create Job
View all jobs	Admin → Jobs	—
Create a job directly	Admin → Jobs	New Job
Assign employee to job	Admin → Jobs → open job	Assign Employee
Reschedule a job	Admin → Jobs → open job	Edit Schedule
Mark job complete	Admin → Jobs → open job	Mark Complete
View calendar	Admin → Calendar	—
Send an invoice	Admin → Invoices → open invoice	Send Invoice
Mark invoice paid	Admin → Invoices → open invoice	Mark Paid
Download invoice PDF	Admin → Invoices → open invoice	Download PDF
Send client email	Admin → Tools → Email Tools	Send
Add new client	Admin → Clients	Add Client
Invite a new agent	Admin → Agent Management	Invite Agent
Add employee	Admin → Employees	Add Employee
Process payroll	Admin → Payroll	Process Payroll
Update business info	Admin → Settings	Save Settings
Change password	Admin → Password	Update Password
Log out	Top-right → your name	Log Out

Agent Quick Reference – Full Table

Task	How to Do It
Access the Agent Portal	mayuragardenservices.com.au/agent
Register new account	Agent Portal → Register
Log in	Agent Portal → Sign In
Submit a service request	Dashboard → New Request
Check request status	Dashboard → My Requests
View / approve a quote	My Requests → open request → Approve Quote
Download an invoice	My Requests → completed request → View Invoice
Contact the office	My Requests → open request → Contact Office
Update contact details	Dashboard → My Profile → Edit
Change notification settings	My Profile → Notifications
Change password	My Profile → Change Password
Log out	Dashboard → top-right → Log Out

Tips for Agents

- Add the portal to your phone's home screen for one-tap access.
- Include access codes and tenant contacts in Special Instructions of every request.
- Enable email notifications to your most-checked email address.
- For urgent reschedules, phone the office directly.

NOTE

Pages 33–40 of this guide form the Agent section and can be printed separately as an 8-page standalone reference for agents.

Employee Quick Reference – Full Table

Task	How to Do It
Log in	mayuragardenservices.com.au → email and password from office
View today's schedule	Log in → schedule appears on dashboard
View a job's full details	Dashboard → tap the job
Get directions to a property	Job detail → tap the address → maps app opens
View access codes	Job detail → Special Notes section
Tick off a service task	Job detail → Services Checklist → tap the checkbox
Mark a job as complete	Job detail → all tasks ticked → Mark Complete
Add a note to a job	Job detail → Notes section → type and save
Attach before/after photos	Job detail → camera icon → take or choose photo
View your payslips	Menu → My Payslips → select payslip
Download a payslip	My Payslips → open payslip → Download PDF
Update contact details	Menu → My Profile → Edit
Change password	Menu → My Profile → Change Password
Log out	Menu → Log Out

Important Reminders

- Check your schedule every morning before you start work.
- Mark jobs complete as soon as you finish – not at end of day.
- Contact the office immediately if you cannot access a property

NOTE

If your portal shows 'No Employee Profile', the office has not yet set up your profile. Contact your manager before your first shift.

Appendix B – Glossary of Terms

A – L

ABN

Australian Business Number – the 11-digit identifier on all Mayura invoices.

Admin Section

Password-protected back-office used by office administrators.

Agent Portal

Separate login area for real estate agents and property managers.

Approve

Confirming acceptance of a formal quote so the job can be scheduled.

Callout

The numbered gold circle on a screenshot pointing to a specific feature.

Client

A person or organisation receiving gardening services.

Dashboard

The home screen after login, showing a summary of current activity.

Employee Portal

Staff-facing section where garden team members view schedules and payslips.

GST

Goods and Services Tax – the 10% Australian tax shown on all invoices.

Invoice

Formal payment request sent after job completion, including GST breakdown.

Job

A confirmed, scheduled gardening service at a specific property and date.

Legend

The table beneath each screenshot explaining the numbered callouts.

Appendix B – Glossary (continued)

M – Z

Materials Library

Catalogue of supply items with name, unit and price used in quoting.

Package

A bundled set of services at a fixed combined price for common job types.

Pay Period

The fortnight or month covered by a payroll run.

Payroll

Process of calculating and recording employee wages based on completed jobs.

Payslip

Document showing earnings, tax and net pay for a pay period.

Portal

A secure login-protected area of the website.

Quote

A formal written cost estimate. Must be approved before a job is created.

Quote Request

An informal enquiry asking for a quote on a service.

Schedule

The calendar of upcoming jobs.

Top Navigation

The horizontal menu bar at the top of every Admin page: Dashboard, Quotes, Jobs, Emails, Clients, Settings, Password and Logout.

Status

Current state of a quote, job or invoice (Pending, Approved, Scheduled, etc.).

Webmaster

Technical administrator. Nominated webmaster: Andrew Perry (andy.perry@vista.com).

Appendix C – Troubleshooting & FAQ

Common Questions

I can't log in – wrong password error

Check CAPS LOCK is off. Use 'Forgot Password' on the login page to reset via email. Check spam if the email doesn't arrive within 5 minutes. If still stuck, contact the office or webmaster.

The website is loading very slowly

Check your internet connection. Refresh the page (F5 on desktop or pull-down on mobile). If the issue continues, the site may be under maintenance – try again in 30 minutes. Still unavailable? Contact the webmaster.

A screen looks different from the screenshot in this guide

The website is updated over time. Core features and navigation remain the same. If a button described here is not visible, you may not have permission for it – check with the office administrator.

I can see a job on my schedule that isn't mine

Contact the office immediately. Do not mark the job complete. The office will reassign it.

An invoice shows the wrong amount

Do not send or pay it. Notify the office to have it corrected and resent.

I accidentally marked a job complete before I finished

Contact the office immediately. The administrator can reset the job status.

The agent portal shows an error when submitting a request

Check all required fields (missing fields appear in red). If the error persists, note the message and contact the office or webmaster.

Photos won't attach to a job on my phone

Ensure your browser has camera permission. iPhone: Settings → Safari → Camera → Allow. Android: check browser app permissions.

I get a 'Session Expired' message

Your session timed out for security. Log in again. Avoid leaving the portal open in an inactive background tab for long periods.

Appendix C – Escalation & Issue Resolution

Escalation Path

If you cannot resolve an issue using this guide, follow this escalation path:

Step	Action
1	Re-read the relevant section of this guide.
2	Contact the office administrator. Most issues are resolved at this step.
3	If it is a technical or login issue the admin team cannot resolve, contact the webmaster: Andrew

Browser Compatibility

Platform	Recommended Browser
Windows PC	Google Chrome (latest) or Microsoft Edge (latest)
Mac	Safari (latest) or Google Chrome (latest)
iPhone / iPad	Safari (latest)
Android	Google Chrome (latest)

Clearing Your Browser Cache

If the website behaves unexpectedly, clearing your browser cache often resolves the issue:

- Chrome / Edge: press Ctrl + Shift + Delete → select 'Cached images and files' → click Clear data
- Safari (Mac): Safari menu → Clear History
- Safari (iPhone): Settings → Safari → Clear History and Website Data

NOTE

Clearing the cache logs you out of all websites. Have your login details ready before clearing.

Appendix D – Security & Privacy

Keeping Your Account Secure

The website stores business and client information that must be protected. All users – administrators, agents and employees – are responsible for keeping their own account secure.

Password Rules

- Use a password at least 8 characters long with mixed uppercase, lowercase and numbers.
- Do not use the same password as other websites or apps.
- Change your password every 90 days.
- Never share your password with anyone, including colleagues.

Protecting Client Information

- Do not share client names, addresses or contact details outside the Mayura team.
- Do not screenshot client records and share via social media or messaging apps.
- Only access records relevant to your current work.

Reporting a Security Concern

If you believe your account has been accessed by an unauthorised person, or you notice unusual activity:

Action	Details
Change your password immediately	Admin → Password or My Profile → Change Password
Contact the webmaster	Andrew Berry – andy.berry@victa.com

NOTE

Mayura Garden Services complies with the Australian Privacy Act 1988. Client information is held in accordance with the Privacy Policy at mayuragardenservices.com.au/privacy.

Appendix D – System Requirements & Support

System Requirements

No software installation is required. The website works on any modern device with a current web browser.

Platform	Recommended Browser
Windows PC	Google Chrome or Microsoft Edge (latest version)
Mac desktop / laptop	Safari or Google Chrome (latest version)
iPhone / iPad	Safari (included with iOS – keep iOS updated)
Android phone / tablet	Google Chrome (latest version)
Linux	Google Chrome or Firefox (latest version)

Printing This Guide

- Paper size: A4
- Orientation: Portrait
- Colour printing recommended for screenshots and callout circles
- To print Agent section only: print pages 33–40 as a standalone handout
